

Support Gun Owner's Mental Health

When you buy one of these targets, you are directly supporting the mental health of gun owners. A portion of every target purchased will be donated to Walk the Talk America (WTTA), a nonprofit organization that is pro-2A and comprised of firearm industry professionals.

Your purchase will help WTTA continue providing free and anonymous mental health screenings on its website and through other efforts. For instance, WTTA offers comprehensive training to mental health professionals, equipping them with the knowledge and skills to better support the mental health needs of gun owners and communicate effectively with them.

The improvement of mental health for gun owners is something the 2A community should lead and provide solutions for, not wait for others who may not understand the culture.
